Houston Fertility Institute

“Turning Couples Into Families”

1st Fertility Office in Katy Thriving & Growing ~ Babies, Babies!

by *anna charles*

It used to be that if you lived in Katy you had to travel to Houston or elsewhere for fertility services. That changed in 2007 when Houston Fertility Institute opened its Katy office becoming the first fertility clinic with a presence west of the Beltway. Thanks to Houston Fertility Institute (HFI), patients can experience high-quality, high-tech, comprehensive fertility care in a supportive and caring environment close to home. For the ultimate in convenience, patients have the option of visiting any of HFI's other 7 locations as medical records are linked electronically to all locations.

HFI's Medical Director, Jimmy Gill, MD, founded Houston Fertility Institute nine years ago with the goal of providing personalized care and innovative ways to treat the causes of infertility at a reasonable cost. Dr. Gill explained, "Patients deserve to be treated with compassion and respect, not like a number. They are mainly looking for high pregnancy rates at affordable prices and our goal is very simple ~ to provide this."

Dr. Gus Haddad, Director of Clinical Research at HFI, brings extensive experience and background in the reproductive field to Katy and its residents. "Katy is a wonderful community and we have received great support from the local physicians who refer their patients to us for fertility treatment," Dr. Haddad added.

All of the doctors at HFI recognize the importance of relationships in overcoming infertility. Each patient is cared for with sensitivity,

compassion and understanding throughout the treatment process, and has the benefit of their physician's expertise at every visit.

LAURA'S JOY x 2

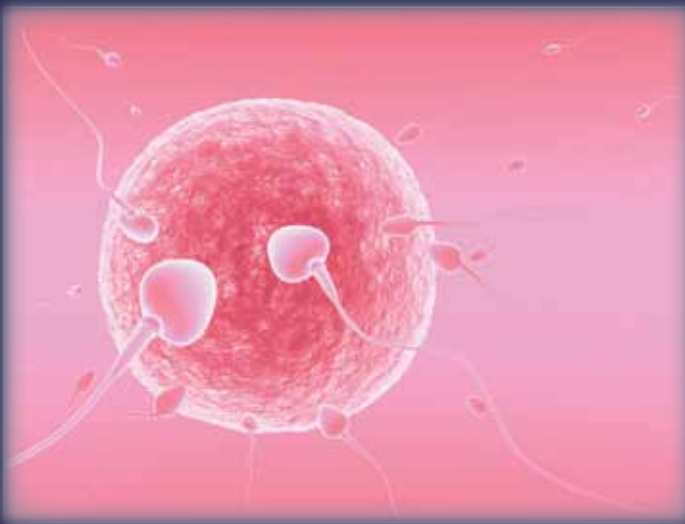

After struggling through several miscarriages, Laura's Ob-Gyn ran tests but she stated, "He couldn't find anything wrong so he referred us to Houston Fertility Institute and that's when our luck began to change."

Laura underwent IVF at HFI...and the result? She and her husband became the proud parents of twin boys in October, thanks to the help from Dr. Haddad and the HFI team!

"Dr. Haddad and everyone at HFI makes you feel comfortable and welcome, just like family. They get to know you personally and

Caring Environment Close to Home

HFI Doctors

~ Reproductive Endocrinologists ~

even recognized my voice on the phone when I called. We really appreciated all of the little things they did, like calling with my blood work results right away instead of making us wait."

"Dr. Haddad is amazing. He's very caring and knowledgeable and knows how to connect with his patients. He really gets involved, takes his time and explains everything thoroughly in terms that you can understand. He's so personable, positive and upbeat—my husband and I just love him!"

"Now that we have our sons, I miss going to the office and seeing Dr. Haddad and the staff. I can't say enough good things about HFI. I wouldn't use anyone else and have referred several friends to them."

The best fertility treatment in Texas is close to home and just a phone call away. Call Houston Fertility Institute in Katy today at 281-693-2434 and schedule an appointment. The office is conveniently located at 23920 Katy Freeway, Suite 340, Katy, Texas 77494. All medical insurance plans are accepted and they will help to determine your coverage.

For more information and a complete list of locations, please visit www.houstonfertilityinstitute.com. In addition to the Katy office, HFI has offices in The Woodlands, Willowbrook, W. Houston, The Medical Center, Sugar Land, Tomball and Clear Lake.
